ICONS

MATERIAL/PRODUCTION

Pollutant-reduced production
The prerequisite for the award of this symbol is an existing OEKO-TEX® STANDARD 100 certification. The EU REACH regulation is mandatory by law and is therefore not explicitly displayed on the article.

(Partly of) recycled materials
The (Proportionate) Recycled Materials symbol is given to all items that are certified to a recognized recycling standard, such as RCS 100, RCS Blended and GRS.

Organic cotton
All items bearing the organic cotton symbol are certified according to one of the recognized organic cotton standards. These include GOTS, OCS 100, OCS Blended and EU Ecolabel. as well as OEKO-TEX®, ORGANIC COTTON. Certified organic cotton in conversion also falls under this symbol.

Fairtrade
Articles made from FAIRTRADE certified cotton are marked with the official FAIRTRADE COTTON seal. This standard aims to improve social and environmental conditions in cotton cultivation. Fairtrade is one of the best known sustainability seals in the world. We mark appropriately certified items with the seal instead of an icon.

Fair working conditions in textile manufacturing
All articles bearing the Fair Labor Conditions symbol are certified according to a standard for compliance with or improvement of social conditions in the supply chain. This includes factory certificates according to the Fair Wear and amfori BSCI code of conduct, complied standards according to SA 8000, Wrap, the Fair Labor Association and OEKO-TEX® STeP / OEKO-TEX MADE IN GREEN. Information on request.

JERSEY 150 | 100% cotton (85% cotton - 15% organic cotton) | Entirely pretreated for all-over digital printing | Tubular | Ribbed round neck and neck tape | Modern fit | Notes on storage and handling: stable temperature lower than 30°C, humidity around 65%, dust-free environment, careful handling (do not rub/stretch) | Printing possible with all conventional digital textile direct printing machines, not suitable for machines with integrated pre-treatment | Additional printing information: the drier the cotton, the better the colour brilliance. If the shirts are stored in a room with high humidity, it is advisable to pre-press the shirt 3-5 seconds before printing. The shirt can be pre-pressed and you can start printing immediately or within the next 30 minutes.
